**Course in  
Workplace  
Spotting  
for  
Service Assets**

## **Course in Workplace Spotting for Service Assets State Registered Course 21705VIC**

Developed within the guidelines & requirements of Energy Safe Victoria this state accredited course will provide the attendee with a working knowledge of the **NO GO ZONES** & the required skills to manage works within the **NO GO ZONES**.

This course is strongly recommended for any Employee, Manager, Work Supervisor, OH&S Representative or Civil / Building Contractor who works near overhead or underground assets, such as Electricity, Gas, Sewer & Water.

### **Course Delivery**

This course is designed to be undertaken in a class room environment.

The course comprises of approximately 8 hours of individual class time with a written assessment at the completion of the unit.

The unit is comprised of a question & answer workbook for the unit and an open book supervised assessment at the completion of the unit.

The successful attendee receives from Energy Safe Victoria a License Certification as a “Spotter” for the item or items of Plant for which a Certificate of Competency is held.

### **Required Prerequisites:**

Level 2—First Aid Certificate (**Current**)

EAR / CPR Certificate (**Current**)

Riggers / Dogman License

OR

Certificate for the plant item for which you will be spotting.

**The Victorian OH&S Act & Energy Safe Victoria require that EVERY Contractor who works in & around overhead & or underground assets provide on every worksite a “Licensed Spotter” to oversee in conjunction with Site Management the undertaking of works within.**
